**K.A. Nuzum**

*Will can see his future stretch out before him. It's as clear as the plains that lead to La Junta and the first-place prize at the rodeo. He will become a man, a cowboy with a life of his own. But his twin brother, Denny, follows, bringing with him the memory of that small white scar. Ahead lies adventure; behind, responsibility. And on the road between, Will and Denny will travel together -- brothers united by blood.*
